SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The staff at Palmetto Middle School continues its efforts to provide our students with a high quality education. Not only are our students learning the core curriculum but they are also learning how to become good stewards of their community via our commitment to service learning. Additionally, our students are learning of the benefits of the great outdoors through their involvement with the South Carolina Department of Natural Resources (DNR).

This past year, our school was recommended and chosen by the State Department of Education and the Department of Natural Resources to become the first in the nation Life's Better Outdoors Natural Resource School. This is a partnership between our school and DNR to teach students the benefits and enjoyment of an active life "outdoors." Our students are benefiting physically while at the same time increasing their knowledge of active lifestyles provided by the great outdoors. Students participated and learned how to do many activities, such as kayaking, canoeing, hiking, birding, photography, fishing, archery, and skeet shooting/gun safety.

In the classroom, our teachers continue the refinements of their professional learning community by making steady improvement in their instructions provided to the children. What is more notable is how our entire faculty analyzes classroom and statewide test data striving to find ways to improve student learning.

We are happy with the progress our students continue making academically, socially and now environmentally. As we study and compare our data to schools like ours, we are thrilled to find that our test data continues to show gains from the rigor of our curriculum.
